Body Scrubs Rp. 350,000,-

BALI BOREH LULUR - using a spicy herbal scrub, traditionally done before special ceremonies, the Bali Boreh Lulur is meant to cleanse, beautify and invigorate the recipient on their special day. It's also used as a traditional healing treatment, suitable for anyone with a fever or just feeling run down. This is followed with a gentle massage using extra virgin coconut oil.

ROYAL MANDI LULUR - This Javanese body treatment for the bride to be is made with a combination of Indonesian herbs, is traditionally applied daily for a month prior to the woman's wedding day. After the skin has been polished with the lulur, the body is then covered with cool creamy yoghurt leaving the skin silky smooth.

BALI KOPI TREATMENT - Using locally produced coffee, this stimulating scrub shrinks the surface capillaries, penetrating deeply into the skin to assist in the breakdown of cellulite. A carrot mask is the applied, rich in Vitamin A and full of antioxidants which slows the aging process and completes this luxurious treatment.

PALM BODY TREATMENT - An ideal treatment for jet-lag or the "morning after" to recover from the night before. This coconut scrub pulls toxicity from the skin before a coconut and yoghurt mask hydrates and calms the body and the mind.

SUNBURNT BODY TREATMENT - Soothe the skin with an extra virgin coconut oil full body massage to increase burnt skin hydration levels and to slow the peeling process. It is followed by a freshly blended, cooling cucumber and aloe vera mask.

Hair Cream Bath Rp.210,000,-

Sun, sea and wind all damage the hair, causing excessive dryness leading to split ends. Revitalise hair with our deep conditioning hair bath, and scalp massage.

Facial Masks Rp. 259,000,-

Our masks and scrubs are all natural, and will nourish your skin with vitamins, minerals and essential elements leaving you looking and feeling, younger and more radiant. The skin is cleansed and massaged with coconut oil. The face is then gently exfoliated with the scrub of your choice. A second cleansing and massage with oil aids to hydrate the newly exposed skin. The neck, chest and arms are also massaged with coconut oil for deeper relaxation. The Use of Effective Micro-organisms mixed with our facial mask enables the vitamins and minerals to better penetrate through the skin, enriching and redefining the face. While the mask is left to penetrate the deeper layers of skin, the arms, hands and shoulders are massaged, taking the treatment to new levels of relaxation. The mask is then removed and cold cloths are applied closing pores and toning the skin.
